

Scott Sanders

(347) 889-2300
scott@scottsandersdev.com

Versatile full stack engineer with over ten years of experience in agile software development. Obsessive polyglot with a passion for solving problems with technology.

EXPERIENCE

Huge, Brooklyn, NY — *Senior Engineer*

March 2016 - PRESENT

Projects:

Unnamed grant management system

- Build Java/Spring REST api's that integrate with existing Oracle database
- Create new front end by implementing custom built component library with React and Redux

SK-II Smart Store (bit.ly/skii-smart-store)

- As the middleware engineer I built a websocket server to interface with custom interactive experiences throughout the store.
- Built an eye-tracking application as a custom experience that mapped a user's gaze to interaction points on the screen.

The Keyword (blog.google)

- Lead Front End engineer for a major re-skinning of google's central blog platform, utilizing Google's Closure and Glue libraries.

Freelance, New York, NY — *Web Developer*

August 2014 - February 2016

- Phillips Van-Heusen - Create a rewards platform. Update existing sites to be responsive. Create marketing sites for new brand acquisitions.
- DirecTV - Execute a site-wide re-branding following the company's acquisition by AT&T.

Levatas, Palm Beach Gardens, FL — *Web Developer*

May 2012 - June 2014

Responsible for the creation and maintenance of software. Most projects were web-based, featuring a Content Management System and responsive components. Projects were constructed using Agile Development practices.
